# ALL BIDDERS PLEASE READ

## **Terms Governing This Sale**

Bidders unknown to us will please furnish bank or other references or deposit 25 percent with their bids, and it is agreed that remittance will be made upon receipt of invoice if references are not furnished.

Any coin which is not satisfactory may be returned within five days from date of receipt for full refund. **You must be satisfied. PAYMENT TO BE MADE UPON RECEIPT OF MERCHANDISE.** Coins remain our property until paid for. There will be no charge for executing your bids but the purchasers will be required to pay the postage and insurance on their purchases. If you do not wish coins sent airmail please note this on your bid sheet.

We shall welcome your bids and will try to purchase the coins as much below your bids as possible. **PLEASE BID BY THE LOT.** Unlimited bids are executed at an advance of 5 percent over the next highest bid. Numbers in ( ) are the quantity of that item.

If you are interested in any particular coin, we shall be glad to have you write us for full information. **LOTS CANNOT BE BROKEN.** Be sure you bid on the correct lot as we cannot be responsible for errors in bidding.

## **BARGAINS**

In every sale, some lots go at "bargain prices." May we suggest that in addition to bidding on those lots you "really want," you place nominal bids on those lots that "you might buy if they went at bargain prices." While you may not obtain many of these "bargain lots," yet in every sale you may pick up some real bargains.

# IS THIS YOUR FIRST AUCTION CATALOG?

26th EDITION (1973) GUIDE BOOK, PAPER MONEY 7th EDITION,  
"TRENDS" AND OTHER AUCTION RECORDS  
USED IN CATALOGING

Occasionally a collector writes us asking why our estimated values in some instances are higher than the catalog listing. This occurs when the demand is so great and the supply so small that new records are set whenever these come upon the market. If one will take a few moments to reflect, he will understand that it takes several months to compile the necessary information before the catalog can be published, therefore, it is inevitable that the catalog listing will be under the prevailing market price on the items in popular demand at the time of the publication. **The estimated prices are entered only after careful examination of various records and publications which reflect the actual and not theoretical values. (PLEASE NOTE THAT MANY OF THE ESTIMATES ARE CATALOG VALUE ONLY. MANY OF THE GOLD COINS, SILVER \$1, WASHINGTON QUARTERS, CURRENCY, ETC. ARE ESTIMATED AT CATALOG).** In the final analysis, you the collector, are the one who sets the price.

**BIDS ARE RECORDED AS FOLLOWS:** Each bid sheet is given a number as it comes in, and the bids are recorded. In the event of identical bids, the first bidder receives the lot. At the last day of the sale, the books are closed with the highest bidder on each lot being awarded the lot at an advance of not over 5% above the next highest bidder. For illustration—the two highest bids received on a lot may be \$17 and \$20. The highest bidder who bid \$20 would receive the lot at \$17.50. We act as your agent and use your bids as a limit—not as a final bid unless we are forced to do so to obtain the lot. We accept unlimited bids which generally assures the bidder of obtaining that lot regardless of what the highest bid may be. Where the lot is bringing far more than we believe it is worth, or in the event of two unlimited bidders on the same lot, we notify the unlimited bidders by phone or wire, if necessary, in order to obtain a fixed limit to the bid. Even tho auction purchases are supposed to be final, we do not want you to keep any lots which you believe are improperly described. We endeavor to treat our customers as we would wish to be treated. We try to keep it on a friendly basis and value the many friends we have made thru the years. If you have any complaints, we want to hear them, as well as any compliments.

**ANY COIN WHICH IS NOT AS REPRESENTED MAY BE RETURNED WITHIN FIVE DAYS FROM DATE OF RECEIPT FOR FULL REFUND. YOU TO BE THE SOLE JUDGE AS TO CONDITION. YOU MUST BE SATISFIED.** No, you won't receive a nasty letter for returning a coin — instead you will receive a letter thanking you for calling attention to the error made in cataloging. While we try to describe coins as accurately as possible, it is inevitable that an occasional error is made in the cataloging of thousands of coins for each sale. Whenever this happens, we want is called to our attention to help prevent future errors.

Any lots may be inspected prior to the sale. Collector is liable until received by us. Collector to pay postage and insurance both ways.

If you are not interested in these sales, won't you advise us so we may discontinue sending you catalogs.

**Please allow up to two weeks for receipt of coins; unsuccessful bidder will be notified.**

## 1820 CHOICE SET 1c, 10c, 25c, 50c

- 1—1c Large Date, N-13, Prooflike surface, RED UNCIRCULATED blending to lovely bluish brown. Easily worth over ..... 250.00
- 2—10c Large O, GLITTERING BLuish GOLDEN PROOF! EXCESSIVELY RARE.....  
**DATE IN PROOF!** The less rare 1831 proof in the 1971 A.N.A. Sale (Stacks) brought \$1,000; surely this rarer type and date now worth at least ..... 2,000.00
- 3—25c Small O, Glittering bluish golden Uncirculated, **SHARP STRUCK WITH DEEP EDGE SERRATIONS, FULL SLIGHTLY PROOFLIKE LUSTER.** faint "cabinet friction" visible on high points when closely examined with glass. A premium specimen worth over ..... 850.00
- 4—50c Sq-base knob 2, Large Date, bluish Uncirculated, **SHARP STRUCK**, faint "cabinet friction" evident when closely inspected with glass. Catalogs ..... 150.00

## 1829 CHOICE SET 1/2c, 1c, 5c, 10c, 50c

- 5—1/2c Reddish brown Uncirculated. Catalogs ..... 77.50
- 6—1c REDDISH-BLuish-OLIVE BRONZED PROOF (similar to Eliasberg's) WITH NEEDLE-SHARP STRIKE & "SQUARE-EDGE"! A LOVELY SPECIMEN OF THIS RARITY N-6 VARIETY. .... 3,500.00
- 7—5c BRILLIANT BLuish GOLDEN PROOF WITH RAISED EDGE! RARE & DESIRABLE "FIRST YEAR OF TYPE". EASILY WORTH OVER ..... 500.00
- 8—10c GLITTERING BLuish GOLDEN PROOF WITH RAISED EDGE! RARE!  
The 1831 proof in the 1971 A.N.A. Sale (Stack's—Aug.) brought \$1,000.00. This desirable "First Year Of Type" worth?

- 9—50c GLITTERING BLuish GOLDEN PROOF! POPULAR FOR "TYPE". ..... 1,000.00

## 1794 HALF DOLLAR — UNLISTED CRNTS ERROR

- 10—1794 Wide date (0-101 variety) 21 berries, very fine to extremely fine obverse (top milling quite sharp, small portion bottom milling narrow & indistinct, glass reveals two short faint "mint equalization marks" at edge) reverse extremely fine with outer portions being a bit sharper than inner ones. **ERROR EDGE with "CRNTS" instead of "CENTS"!** Not listed in Overton! **ONLY SUCH ERROR WE CAN RECALL SEEING!** Should bring over \$2,000; possibly closer to 2,500.00

## 1794 REVERSE 1795 HALF DOLLAR

- 11—1794 REVERSE OF 1795, "C" in AMERICA Broadly Recut (0-102) 17 berries, extremely fine with luster, lovely bluish golden purple patina, tips of wings not as fully struck up as balance of coin, pinpoint edge nick. A "TYPE" coin and only the one variety. Acquired about 8 years ago as "FINEST OF ABOUT 5 KNOWN B-1B, H-3". Overton confirms its rarity (R-7, 4 to 12 known). **OVERTON DOES NOT HAVE A PLATE FOR THIS REVERSE EVEN THO THERE ARE PLATES FOR ALL THE OTHER REVERSES!**  
The "Want-List" of Overton accompanying the book includes this as "WANTED — FINE OR BETTER".

**WHAT A COMBINATION: A "TYPE" coin of GREAT RARITY in "TOP" CONDITION!** Using Sheldon's (Penny Whimsy page 55) formula for arriving at values ("If finest reported of the variety, but not full MS, Value equals Condition times Basal Value times 3.") We arrive at a value of over \$10,000. Overton added Rarity to current (1970) edition and states (page XII) about the other factors determining values, "it is hoped in the future to produce an inexpensive pamphlet covering the more Rare varieties in regard to both condition and estimated values". Until this pamphlet is printed, we feel this rarity will not bring its full "book value".

ORDER PRICE LIST, \$1.00 --- KEEP INFORMED

- 12—1794 CLOSE DATE (0-106) 21 berries, early die state with light die crack connecting IB, extremely fine obverse with deep serrations of milling, some "mint equalization marks" (done at mint to bring planchet down to its proper weight—thereby saving the cost of melting & recoinage. Reverse is **EXTREMELY FINE & SHARP** with **VERY DEEP EDGE SERRATIONS**, some portions having only slight friction, lovely bluish golden patina, (**SUPERIOR TO OVERTON PLATE**). **RARITY 6 (ONLY 13 TO 30 KNOWN)**. Probably among "**TOP 3 IN CONDITION-CENSUS**". Much **RARER "TYPE" THAN WIDE DATE**. If "Second Finest Known" ("Value equals Condition times Basal Value times 2½" — Sheldon). If "Third Finest Known" ("Value equals Condition times Basal Value times 2" — Sheldon). "Book Value" thus at least \$5,000.00. We do not however, expect it to bring "Book Value" until Overton publishes his projected pamphlet of values.

### 1795 "TYPE" HALF DOLLARS

- 13—1795 "A" over "E", **STETES** corrected to **STATES** (0-113), characteristic die lump right of date, **virtually Uncirculated, only barest friction on highest points ("cabinet friction")** faint line on cheek resembling die crack, some interesting slight undulations in edge serrations of milling caused by impressing of letters & devices in edge, bluish gray patina. **ONLY THE ONE VARIETY WITH THIS SPECTACULAR "CORRECTED ERROR REVERSE"**. Acquired about a decade ago as "Uncirculated" at \$2,000.00. **FAR SUPERIOR TO THE OVERTON ABOUT FINE PLATE COIN!**

The "commonest" 1795 in this condition would be worth about \$1,500; but as a "Type" with only the single die combination, it should be worth over \$2,500. Using Sheldon's formula, if it is "Third Finest Known" then it is worth at least \$5,000; if "Second Finest Known", then it is worth \$6,250; & if "Finest Known", then it is worth \$7,500.00. We do not however, expect it to bring "Book Value" until Overton publishes his projected pamphlet of values.

- 14—1795 With 16 berries (0-115) (Scott cat. states "The 17 berry rev. is the only fairly common one") **BRILLIANT SLIGHTLY GOLDEN UNCIRCULATED!** Close examination reveals some uneven application of pressure in striking of obverse milling, microscopic break at edge below 5, another below U in UNITED; **FEATHERS OF EAGLE'S BREAST DEFINED!** Acquired 9 years ago just for its condition (without attribution) at \$2,500.00. Overton lists it **RARITY 6 and the Plate Coin Is Only Fine!** As a "common" date, its condition would entitle it to a value of at least \$3,000 but as Rarity 6 it should be worth closer to \$5,000.00. Using Sheldon's formula, its value would then increase at least 3 times as "Second Finest Known" in MS or 4 times if "Finest Known" in MS — a "book value" of at least \$15,000.00. Again, we do not expect it to realize this "book value" until Overton's pamphlet of values is published.

- 15—1795 Short 9, Die lump above last star, 18 berries (0-119), very fine obverse with reverse being closer to extremely fine. Acquired some years ago as "B-9N; Beistle Very Rare". Later notation "**DOLLAR**" (full serifs top and bottom of I's) **EDGE**". The "common" 17 berry 1795 catalogs v.f. \$525; this scarcer variety in superior condition therefore worth at least \$750. In addition, **IT IS A BIT SUPERIOR TO OVERTON PLATE COIN!** Therefore there is a strong probability that it is "**CONDITION-CENSUS**" (among the top 6 in condition). As such, it would be worth over ..... 1,100.00
- 16—1795 **SMALL NARROW HEAD & BUST** (0-129)—Listed as Separate "**TYPE**" in Scott Catalogue. **SHATTERED OBVERSE DIE WITH CRACKS SO SPECTACULAR THAT WE ARE CALLING IT Overton 129a!** Heavy wide crack covering 2 points star 9 to top of Y; another from edge thru left branch Y, enlarging below Y to meet first crack; heavy wide crack star 7 to head; heavy thin crack edge thru right tip 5 to bust; some pin-scratches resembling light cracks. Obverse very good except for small spot left edge due to heavy crack; reverse about fine for eagle with wreath and legend fine to very fine, slight edge nick. **Acquired some years ago as RARITY 7 which appears reasonable since 0-129 is Rarity 6!** Scott list "**Small Head**" Type (Beistle 15, 17, 19 obvs.) (0-126-27-28) at \$350 good & \$700 fine. The 3 varieties are R-5, R-6, R-6; therefore this **RARER VARIETY** in this condition worth over ..... 750.00

## 1797 HALF DOLLAR, SMALL EAGLE & "1/2"

17—1797 Reverse of 1796 (0-101), Very Fine with attractive bluish patina. Better appearing than most "very fine" specimens as the wear is fairly evenly distributed. Much rarer (Rarity 6-13 to 30 known) than 0-102 (dif. reverse) listed as Rarity 5—31 to 80 known! The "commoner" 0-102 was listed in v.f. in 23rd Edition of Guidebook at \$4,250; in 24th Edition at \$4,650; & in 25th Edition at \$4,950.00. The present strong market should send it somewhat higher.

## 1801-07 HERALDIC EAGLE HALF DOLLARS

- 18—1801 Variety 101, 13 arrows, virtually Uncirculated, only barest friction, characteristic weakness of some obverse stars and top reverse stars, attractive blue and golden patina. RARE! Catalogs unc. 1,200.00
- 19—1802 Variety 101, 12 arrows, very fine (a few faint lines visible on reverse when closely examined). Catalogs bit low at only 325.00
- 20—1803 Large 3, 12 arrows & small reverse stars (0-101) virtually Uncirculated, only barest friction, attractive golden patina, characteristic flat stars (see Overton plate) but Scott lists as "TYPE" (only single die combination) at double "common" 1803 price. Desirable earlier die state with stars fuller than on most! **FAR SUPERIOR TO THE FINE SPECIMEN ON OVERTON PLATE!** Presumably "CONDITION-CENSUS" (top condition 6); as such worth an additional 50%. The "common" 1803 lists in Guidebook unc. \$600, therefore this "TYPE" worth \$1,200 unc., plus an additional amount as "Condition Census".
- 21—1803 Large 3, 13 arrows, Large reverse stars (0-103), about extremely fine (uneven wear), bluish golden. **CHOICER THAN OVERTON PLATE!** 250.00
- 22—1805 OVER 4, close date, 13 arrows (0-101); **SPECTACULAR HEAVY BREAK TOP of RIC** (believe it should be listed as 0-101a) underlying 4 very sharp & distinct, characteristic weak second & last stars, virtually Uncirculated, only barest friction, lustrous bluish patina. **SUPERIOR TO OVERTON PLATE COIN!** Scott states "Unverified in unc." & does not price it unc. Evidently "HIGH UP IN CONDITION CENSUS"! Superior to the "Extremely Fine & Sharp" specimen we had at \$675.00. If this is "Third Finest Known" in CONDITION-CENSUS,, then it is worth over \$850; if it is "Second Finest Known", then it is worth over 1,000.00
- 23—1805 Large 80, 5 berries & 13 arrows (0-112) Extremely Fine & Sharp, some luster. 300.00
- 24—1806 OVER 5, 5 berries (0-103) extremely fine with characteristic flat stars (see Overton plate), die state without obverse milling & partial reverse milling as stated in Overton, 2 tiny nicks. Catalogs 250.00
- 25—1806 Pointed 6, stem not thru claw (0-109) Extremely Fine & Sharp, some luster. The only die combination of this "Type". Catalogs in Scott in only v.f. at \$145; surely this choice specimen worth closer to 300.00
- 26—1806 Pointed 6, **DOUBLE CUT "TY"**, stem thru claw (0-115) virtually Uncirculated, only barest friction, much luster. Catalogs low unc. at only 500.00
- 27—1806 Pointed very high 6, "Y" recut at left side, stem thru claw (0-118), beginnings of die cracks thru O (OF) & below arrows, Glittering Bluish Uncirculated, faint "cabinet friction" on highest points. A lovely specimen of this RARITY 4 variety. **FAR SUPERIOR TO THE ABOUT FINE SPECIMEN ON OVERTON PLATE!** The "common" (R-1) 1806 catalogs unc. \$500.00. Rarity 4 should be worth at least double (\$1000) but this obviously "CONDITION-CENSUS" specimen worth at least 1,250.00
- 28—1807 Small 7 (0-102) Uncirculated bluish golden, faint "cabinet friction" visible when examined with glass. Popular as last year of type. Rarity 3 (VERY SCARCE). **SUPERIOR TO OVERTON PLATE COIN!** The "common" 1807 variety

- catalogs in unc. at \$500, which makes this variety worth about \$650 unc. This probably "CONDITION-CENSUS" coin would then have an additional premium of 50%.

### 1807-08 FIRST STYLE BUST LEFT HALVES

29—1807 50 OVER 20C (0-112) very fine. Catalogs .....	70.00
30—1807 Small Stars (0-113) near Uncirculated with luster (much of what appears to be wear in center is actually due to softness in striking—typical of this variety). Scott states "Always weakly struck at centers. Many, many times rarer than next (Large Stars & 50/20 varieties)". Scott lists unc. ....	500.00
31—1808 OVER 7, late die state with many cracks and without most of milling, extremely fine with some luster. Popular. ....	85.00

55—1828 Curl-base no knob 2 (0-101) near Uncirculated. Unc. worth .....	135.00
<div style="border: 1px solid black; padding: 10px;"> <p>56—1828 Sq-base 2, sm. 8's, Lg. Let. (0-113) Uncirculated bluish, SHARP STRUCK! RARITY 4. Undoubtedly "CONDITION-CENSUS" FOR THIS RARITY! If it were a "common" R-1 variety, its condition would make it worth \$175; as R-4, it should surely be worth at least \$300; but as "Condition Census Mint State" (Sheldon) its value increases 2, 3 or 4 times depending upon which position it holds among the "6 Finest Known". Therefore its "Book Value" should be at least \$600.00. It will be interesting to see what it brings compared to its "Book Value".</p> </div>	
57—1829 Huge UNITEDSTATESOFAMERICA (one word) (0-110) Extremely Fine with luster. RARE "TYPE". .....	65.00
58—1829 Small letters (0-115) GLITTERING BLUISH GOLDEN PROOFLIKE, SHARP STARS & DEEP EDGE SERRATIONS! A lovely specimen acquired some years ago as "PROOF" at \$500; present value properly described?	
59—1830 Small o (date), Huge oblong 0 (50C) (0-104) with RARE Raised Segment Lines to left on edge, glittering bluish golden Uncirculated, SHARPER STRUCK THAN OVERTON PLATE COIN with some stars Full & others sharper than usual flat ones! Probably "CONDITION-CENSUS". .....	250.00
60—1830 Large O (date) (0-123) with RARE Raised Segment Lines to left on edge, glittering bluish golden Uncirculated, SHARPER STRUCK THAN OVERTON PLATE COIN! A lovely specimen probably "CONDITION-CENSUS". .....	250.00
<div style="border: 1px solid black; padding: 10px;"> <p>61—1831 Tall 1's with Long Peaks (0-117) obverse milling complete but narrow, curl back of Y not quite completely full; reverse milling nearly complete but narrow and weak, legend trifle weak but still fairly sharp, BRILLIANT GOLDEN UNCIRCULATED, CHOICE! UNKNOWN TO OVERTON WHEN HE PUBLISHED HIS FIRST BOOK AND NOW LISTED AS RARITY 7! In addition, it has the RARE DIAGONAL REEDING TO LEFT (faintly). We believe this is "THE FINEST KNOWN" of this EXCESSIVELY RARE variety! The "common" R-1 1831 variety in this condition is now worth \$150; this R-7 (probably 4 or 5 known) surely worth at least 4 times as much or \$600; plus Sheldon's scale of value "If known to stand alone as the finest reported of the variety, and full Mint State, Value equals Condition times Basal Value times 4". Until Overton's pamphlet is published incorporating "Condition-Census" &amp; "Basal Value" along with the "Rarity", we do not expect rarities to bring their "Book Value". An opportunity to acquire a "GREAT RARITY" at somewhat less than its \$2,000 "Book Value".</p> </div>	
62—1832 Small letters (0-103) BRILLIANT UNCIRCULATED GEM! .....	250.00

### HALF CENTS 1793-94-95

171—1793 G-3, Very Fine (quite sharp with usual porous planchet). Popular "One Year Only" type. Catalogs 1,100.00. In addition, the rarest 1793 variety after G-4!	
172—1794 <b>BUST RIGHT, G-1 variety, about Very Fine although "Half Cent" not legible. Catalogs v.f.</b>	<b>300.00</b>

173—1795 Plain Edge & thin planchet, No Pole to Cap, G-5, virtually Uncirculated, only barest friction! <b>SUPERIOR TO THE BROBSTON SPECIMEN; THEREFORE A CANDIDATE FOR "FINEST KNOWN"!</b> Surely this remarkable specimen worth	1,000.00
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------

174—1795 Plain Edge, <b>EXTRA THICK PLANCHET</b> (made from cutting down spoiled cents), G-6 much rarer than usual thin planchet, No Pole to cap, typical broken dies causing date and some portions reverse not being fully struck up, about very good. <b>VERY RARE (Rarity 6)!</b> The "commonest" 1795 (Rarity 3) catalogs v.g. \$90; surely this rarity worth over double or	180.00
175—1795 Plain Edge, Pole to Cap, <b>PUNCTUATED DATE</b> , G-4, very good with fine & sharp <b>LIBERTY &amp; date</b> , very little of "Half Cent" legible (due to die break). <b>RARE (R-4).</b>	100.00

ORDER PRICE LIST, \$1.00 --- KEEP INFORMED

## HALF CENT 1796 WITH POLE TO CAP

176—1796 Struck from the "Dr. Edwards" dies (see Guidebook) virtually UNCIRCULATED with only barest friction! Notation has "9 known of only 11 struck" & "\$1,250 April 1960 Numismatic Scrapbook". While it is not as desirable as the regular dies specimens, it has achieved its own place along the extremely rare 1811 Restrike (reverse of 1802). It will probably bring over ..... 2,000.00

## HALF CENT 1796 NO POLE "CONDITION-CENSUS"

177—1796 NO POLE TO CAP, extremely fine, typical obverse die break, porous planchet as on Brobston specimen. **EXTREMELY RARE! ONLY 10 OR 11 SPECIMENS KNOWN IN ALL!** Far superior to specimen pictured in "U.S. Half Cents 1793-1857" by Bowers & Ruddy! **FAR SUPERIOR TO THE "FINE" BROBSTON SPECIMEN** (he spent over 50 years searching for a better one!) Sold (Stacks Jan. 1963) at \$5,750. This remarkable specimen appeared on the market shortly before the Brobston collection was offered by Stacks, therefore Brobston did not have the opportunity to acquire it. It sold then at \$11,500.00. When it again came on the market 8 years ago, it was valued at \$15,000.00. What it is now "worth", in this era of inflated dollars, is conjectural. This we do know, **IT IS THE "MOST-WANTED" OF ALL THE HALF CENTS!**

## HALF CENTS 1797-1837

210—1829 13 Stars, Uncirculated brown, faint rub visible with glass. Cat. ....	77.50

**211—1831 G-1, ORIGINAL WITH LARGE BERRIES, UNCIRCULATED STEEL-BLUE WITH TRACE OF BROWN, RAISED EDGES**, close examination with glass reveals faint rubbing (possibly from sliding on the velvet-lined old-time coin cabinets). **THE RAREST DATE OF ALL THE REGULARLY ISSUED HALF CENTS!** Proofs of "Proof Only Dates" (1836-1849) occasionally are offered over the years, but "business strikes" of this date are **"PROHIBITIVELY RARE"**! Occasionally, a proof restrike of this date appears; but when even a proof original is offered, it is quite an event. Stack's had this to say when they sold the Brobston G-1 proof (**BROBSTON DID NOT HAVE A "BUSINESS STRIKE" OF THIS OUTSTANDING RARITY**) "Only about 5 specimens are known in Proof condition. This extremely rare coin appeared in Very Fine condition in our Dupont Sale. **Consider the fact that this coin only appeared once in the last 20 years!** A rare opportunity." The Brobston coin sold (Jan. 1963) at \$1,100.00. This great rarity nearly 10 years later surely worth closer to \$2,000.00.

This is an excellent example how the very rarity of a coin prevents it from being offered sufficiently to be "touted" and rise to its proper level of value. The Guidebook has a dash (---) in place of value. Scott states **"R-7 as a non-proof. Prohibitively rare in unc."**. Considered the "prize" of this half-cent collection by the owner.

## 1856 COPPER-NICKEL HALF CENT

- 229—1856 Struck from regular dies in COPPER-NICKEL (Judd 177), toned proof (due to hardness of nickel, 2 or 3 leaves not fully struck up). VERY RARE, PARTICULARLY SO CHOICE! An EXPERIMENTAL PIECE struck to test quality and appearance of metal before striking 1856 Flying Eagle Cents. Popular with cent (as well as half cent) & pattern collectors. The only "obtainable" pattern half cent! Most we have seen during our 40 years as Professional Numismatists have shown varying degrees of wear. The Brobston specimen Jan. 1963 sold at \$650; surely now, nearly a decade later, it should bring closer to ..... 900.00

## 1793 LARGE CENTS

- 230—1793 S-3, CHAIN AMERICA, basically Sharpness of Very Fine but rough surface. Guidebook lists V.F. at \$1,650; this probably worth "fine" price of .... 975.00

- 231—1793 S-6, WREATH TYPE, Vine & Bars edge, obverse very fine & Sharp with rough spot at edge; reverse Extremely Fine with tiny spot. Valued by Sheldon at about 40% more than the "commonest" variety or in v.f. at over 1,700.00

- 232—1793 S-9, Wreath with horizontal stem above date, Near Uncirculated with lustrous steel-blue color, faint edge nick. A remarkably choice specimen in strong demand for "type". Comparable to a specimen we noticed not too long ago offered at ..... 3,500.00

- 233—1793 S-11c, LETTERED EDGE (one leaf on edge) Very Fine. RARE. Catalogs 1,250.00

- 234—1793 LIBERTY CAP, the "K" reverse but impossible to be absolutely sure about obverse in order to identify if S-15 (as claimed) or S-12. The bust is very good, "LIB" legible but only 7 partly legible in date; reverse only part of UNITED STATES OF and beaded border legible. S-12 is RARITY 6 (13 to 30 known) & S-15 is listed as ONLY 5 KNOWN! S-12 is valued by Sheldon at 60% more than the "common" Liberty Cap variety or in "fair" condition at 480.00

- 235—1793 S-14, LIBERTY CAP, prominent die crack clear across obverse, very good, (tiny edge nick and 2 small worn spots reverse). Sheldon values it 20% more than "common" Liberty Cap or v.g. at ..... 870.00

## 1794 LARGE CENTS

The "key" year on which Dr. Sheldon based his system. One of the most popular years, reflected by the persistent rise in values, particularly in the better conditions.

- 236—1794 S-24, The lovely "Apple Cheek" variety, Extremely Fine & Sharp, minute edge nick visible when closely examined. Valued by Sheldon at 50% more than "common" varieties or well over ..... 500.00

- 237—1794 S-23, "Shattered Obverse" variety, about very fine, tiny edge nick. VERY RARE variety. Valued by Sheldon at 4 times "common" varieties or v.f. .... 800.00

- 238—1794 S-29, LIBERTY high, tailed right ribbon, virtually UNCIRCULATED, ONLY FAINT FRICTION HIGHEST POINTS, lovely light brown color shading to lustrous chocolate. So choice that it was acquired as "UNCIRCULATED AND CHOICE". Could this be the "55" coin listed in "CONDITION-CENSUS"? RARITY 3. Probably worth in excess of ..... 2,500.00

- 239—1794 S-33, "Reverse K. The die is raised at the center so that ONE CENT is usually not legible, and six short breaks are seen at the periphery of the coin, radiating from the border almost like spokes"—Sheldon. As stated, the center reverse is not legible but the legend is quite sharp for the most part, being mostly fine. The obverse is about good. Sheldon states "NINE EXAMPLES OF THIS FAMOUS RARITY ARE NOW KNOWN TO US BUT UNFORTUNATELY THREE OF THEM ARE IMPOUNDED IN ANS, AND TWO OF THE REMAINING SIX ARE INJURED OR BURNISHED COINS". Valued by Sheldon at 15 times "common" varieties or in only good at ..... 525.00

- 240—1794 S-51, Short Bust, Closed Wreath, basically Very Fine & Sharp but some minor abrasions (resemble die breaks) obverse; some corrosion spots re-

- verse. **VERY RARE** (Rarity 5). Valued by Sheldon at 4 times "common" or v.f. \$800; this worth proportionately.
- 241—1794 S-58, Wide Date, thick Hair variety, basically Very Fine but dark grainy surface. Rarity 3 valued double "common" varieties or V.F. \$400; this worth proportionately.
- 242—1794 S-63, Famous "Fallen 4" variety, Extremely Fine & Sharp, slight edge nick. Rarity 3 valued double "common" varieties or about ..... 750.00

243—1794 S-61, Close Date, Thick Hair, right stem short, Extremely Fine & Sharp (very little wear) porous planchet. **Could this be the "EXTREMELY FINE 40" coin in "CONDITION CENSUS"? RARE** (Rarity 4) variety valued 3 times "common" or over \$1,000; but if "Condition Census", then it is worth over ..... 1,500.00

- 244—1794 S-65, Shielded Hair, Short Stems, Extremely Fine with obverse struck slightly to right resulting in left 2/3 being "About Uncirculated" with remarkably sharp edge denticles; hair strands above ear not completely full although the cheek is nice and full, edge denticles above LIBERTY not visible (from being struck slightly to right). The reverse is well-centered and strongly struck being a Strong Extremely Fine; die breaks left side S & From A through ribbon. Well worth ..... 400.00
- 245—1794 S-67, Large Circular Curl, acquired as "About Uncirculated" but close inspection reveals traces of pitting and clever removal of some. **RARE** (Rarity 3). "CONDITION CENSUS" includes 2 in Extremely Fine, therefore this is highly desirable. Valued at double "common" or around ..... 750.00
- 246—1794 S-70, Die break between T & Y, Extremely Fine & Sharp. Acquired as "FOURTH FINEST KNOWN SPECIMEN". Scarce variety. Using Dr. Sheldon's formula for arriving at value, it should be worth over ..... 900.00

### 1795 & 1796 LIBERTY CAP CENTS

- 247—1795 S-77, Plain Edge, ONE CENT centered, good although ONE CENT weak. **RARE** (upper Range Rarity 4). Valued over 3 times "common" varieties or over ..... 100.00
- 248—1795 S-78, Plain Edge, ONE CENT centered, near Uncirculated (some edge denticles not completely full) brownish chocolate. Valued 1/3 more than "common" or close to ..... 750.00
- 249—1796 S-83, End of Pole connected to bust, fine obverse but reverse closer to Very Fine. **VERY RARE** (Rarity 5). An acceptable specimen or this rarity since "Condition Census" includes a very fine one. Valued at close to 50% more than "common" varieties or about ..... 250.00
- 250—1796 S-84, Low 6 variety, about very fine obverse, Very Fine & Sharp reverse. The "commonest" catalogs in Guidebook v.f. at ..... 225.00
- 251—1796 S-85, Very good & Sharp except ONE CENT not as sharp as balance of coin. **EXTREMELY RARE** (Rarity 6). "One of the famous rarities and almost prohibitively scarce above fine." "CONDITION CENSUS" lists 2 fine coins, therefore this is highly acceptable. Valued over double "common" or about .... 175.00
- 252—1796 S-87, Low 6 with bottom of 6 weak, very good. Cat. Guidebook ..... 75.00
- 253—1796 S-91, Wide Date, Very Fine with nice, strong date & Liberty. Catalogs Guidebook ..... 225.00

### 1796 DRAPED BUST, 1797, 1798 CENTS

254—1796 S-100, Close Curved Date, Very Fine in sharpness but some minute edge imperfections. **EXTREMELY RARE** (Upper range R-6). "Two of the condition census coins in ANS.". With "CONDITION CENSUS" having one Extremely Fine, 2 Very Fine, 1 Fine and 2 Very Good specimens. **THIS "CONDITION CENSUS" SPECIMEN should attract considerable attention.** Should bring close to ..... 1,000.00

## 1796 DRAPED BUST, 1797, 1798 CENTS (Cont.)

- 255—1796 S-105, Double Cut 6 variety. This desirable specimen has a known pedigree. It was Lot 121 of the Schwartz sale (Kosoff Oct. 1961) wherein it was described "Very Rare Variety of this popular date, Rarity 6. Medium Brown on a granular planchet. There are possibly 15 or 20 known examples of which this is the **SECOND FINEST, VF-25**. It has been valued at \$750.00." It sold there at \$600 & next was offered in 1964 where it realized \$850.00. Surely this highly desirable rarity now worth well over ..... 1,000.00
- 256—1796 S-106, Date slants right, Reverse of 1795, good. **VERY RARE** (Upper Range Rarity 5). "Two of the top six in ANS — but Condition Census includes a fine specimen." Well worth ..... 150.00
- 257—1796 S-109, Close Curved Date, Very fine, tiny nick, Reverse of 1795. Close to "CONDITION CENSUS" which includes a very fine coin. .... 275.00
- 258—1796 S-119, Closest Date, 6 in Drapery, **UNCIRCULATED REDDISH BROWN**, typical strike with **SHARP OBERSE** but reverse leaves not fully struck up (although balance of reverse quite sharp)! The Helfenstein specimen over 8 years ago (1964 Merkin sale) brought \$1,250; surely this popular date in this choice state of preservation now worth closer to ..... 2,500.00
- 259—1797 S-121, REVERSE 1796, Crudely Grippled or Milled Edge, Close Date, very good. Much rarer than the similar type but wide date S-120b. Valued 1/3 more or ..... 60.00
- 260—1797 NC-3, CLOSEST DATE, FINE WITH SOME PORTIONS CLOSER TO VERY FINE. **SHELDON LISTS ONLY 3 COINS KNOWN**; a very fine one impounded in ANS and 2 in only good. THIS MAKES THE 4TH KNOWN & THE "FINEST IN THE HANDS OF COLLECTORS"! Acquired 1964 at \$510; surely this remarkable specimen now worth closer to ..... 1,000.00
- 261—1797 S-127, Peaked Hair Wave, Fine & Sharp with even wear and attractive brown color. **VERY RARE** (Rarity 6). Possibly the "Fourth FINEST KNOWN" as "CONDITION CENSUS" LISTS A "15" COIN AS SUCH! Acquired over 7 years ago when it was valued \$400; probably now worth over ..... 500.00
- 262—1797 S-131, **STEMLESS WREATH** but **NO DIE BREAK LEFT FIELD** (acquired as the Extremely Rare S-132 which it so closely resembles). Very Fine with some granulation visible when closely examined. The Guidebook lists "commonest stemless at \$250 but this variety without die break surely worth well over ..... 350.00
- 263—1797 S-134, Period Before Throat variety, SMALL FRACTION, Fine obverse but Very Good reverse except UNITED only partially legible. RARE (Upper Range R-4, possibly R-5), Valued 2½ times "common" or about ..... 90.00
- 264—1797 S-135, **SHARP STRUCK UNCIRCULATED GEM!** Lovely blended bluish olive brown with faint suggestion of red, **UNUSUALLY SMOOTH SURFACE!** RARE (Rarity 4). In this era of "Exceptional Prices for Exceptional Coins", it is difficult to know what such a desirable and popular specimen will bring. In 1965, when this remarkable specimen was acquired, it was valued \$2,500; surely it should now exceed ..... 3,500.00
- 265—1797 S-136, Close 97, Wide Date, about Very Fine, granular planchet (Sheldon mentions heavily rusted die). RARE (Rarity 4). Valued double "common" varieties or ..... 165.00
- 266—1797 S-136 "FLIPPED" DOUBLE STRUCK, "ERICA 100" of reverse quite sharp between date & Liberty; reverse "UNRTY" in place of UNITED, very good obverse with reverse closer to good, OVERSIZE PLANCHET. Acquired 1965 when it was valued \$400; present value?

- 267—1797 S-137, "S" OVER "S" variety (S in STATES started too low, then corrected), virtually **UNCIRCULATED**, only barest friction, small spot in center obverse not fully struck up. Superb bluish patina with reddish undertones. A lovely specimen acquired as "**UNCIRCULATED**". Dr. Sheldon states "The die is more flaked and the defects mentioned are more prominent; (reverse) Several irregularities of surface and minor defects are seen. This die also seems to have been made of poor steel." Perhaps we are a bit too conservative in our description of condition, allowing "CONDITION CENSUS" to influence us. If it is condition "55", then IT IS "**THE FINEST KNOWN**"; if condition "50", then it could be **EITHER THE "FINEST KNOWN TO SHELDON"** or "**SECOND FINEST KNOWN**"! The "Condition Census" list is "(50-50-45-35-30-20). RARE (Rarity 3) variety. Acquired 8 years ago at \$1,175; present value surely in excess of \$1,500, perhaps closer to ..... 2,000.00
- 268—1797 S-138, Swelled Reverse Die, rare early die state with swelling at OF only slight, Extremely Fine. .... 300.00
- 269—1797 S-138, Usual die state with swelling at S OF A prominent, about Extremely Fine with porous planchet. Scarce variety. .... 200.00
- 270—1797 S-140, Swelled Dies (point of bust/rx. at OF), Very Fine on flaky planchet. RARE (Rarity 3). Valued 50% more than "common" or ..... 123.75
- 271—1797 S-142, 7 Imbedded in drapery, very good (granulated surface). **EXTREMELY RARE** (Upper Range R-6). The "Finest Known" is very fine & is impounded in ANS; the other 5 range from fine down to very good, thus making this a highly acceptable specimen. Acquired 7 years ago when it was valued at .... 250.00
- 272—1798 S-145 **BUT UNLISTED GRIPPED EDGE**, virtually **UNCIRCULATED**, only barest friction. The normal S-145 Condition Census ranges from A.U. down to very fine, therefore this **GRIPPED EDGE** is **HIGHLY DESIRABLE**, **BOTH AS VARIETY & CONDITION!!!** Acquired 7 years ago in 1965 when it was valued \$5,000.00. Present value?
- 273—1798 OVER 97, S-152, Extremely Fine (rough surface in spots). **HIGHLY DESIRABLE** as "Condition Census" includes very fine. Easily worth over ..... 400.00
- 274—1798 REVERSE 1796, S-155, Extremely Fine (burnished some years ago but now acquiring a more natural color), steel-blue color. **HIGHLY DESIRABLE** as "Condition Census" includes very fine. Easily worth over ..... 500.00
- 275—1798 S-158, 3 Light parallel cracks behind head; Heavy break over ITED and lighter cracks, very fine & Sharp (some minor abrasions). RARE (Upper range Rarity 4). Close to "Condition Census" which includes a 35 coin. Easily worth over ..... 250.00
- 276—1798 S-162, Blunt 1 & Straight Date, Fine with some portions approaching Very Fine. Possibly the "15" coin listed in "CONDITION CENSUS"! **VERY RARE** (Upper range R-5, not far from R-6). Valued 4 times "common" varieties or about \$200; but as "CONDITION CENSUS" it is worth 50% more or ..... 300.00
- 277—1798 S-165, "Whisker" variety, Very Fine appearing but some flakiness of planchet & minor abrasions. Possibly one of the 3 "fine" specimens listed in "CONDITION CENSUS". **VERY RARE** (Upper range of R-5). Worth about the same as above, or ..... 300.00
- 278—1798 S-167, Crack thru Large 8, near Uncirculated, minute evidence of contact on cheek. "CONDITION CENSUS" lists 2 in this condition as "**FOURTH FINEST**" & "**FIFTH FINEST**". Using Dr. Sheldon's formula, we arrive at a value of ..... 450.00
- 279—1798 S-169, High 8, Short Fraction Bar, Very Fine. **VERY RARE** Middle range R-5). Highly desirable since "CONDITION CENSUS" includes a VF-30 coin. Valued over 3 times "common" or over ..... 250.00
- 280—1798 S-170, Date Curved, near Uncirculated, some porosity of planchet (obverse). **RARE DIE STATE** with arc die crack so faint that a strong glass must be used to see it! **RARE** (Upper range R-4). Possibly the 45 coin **LISTED IN "CONDITION CENSUS" AS SECOND FINEST KNOWN!** According to Dr. Sheldon's formula, this rarity should be worth over ..... 1,500.00
- 281—1798 S-174, Projection at Top of 1, Extremely Fine & Sharp, bluish chocolate, some graininess of surface. Possibly one of the two "35" specimens **LISTED IN "CONDITION CENSUS"**! As such, worth about ..... 300.00

## 1796 DRAPED BUST, 1797, 1798 CENTS (Cont.)

282—1798 S-176, Vertical Die Crack (right field), very close to "Uncirculated" in point of wear, but has some patches of graininess of surface, **UNLISTED "GRIPPED EDGE"**! The normal S-176 is **VERY RARE** (Mid-range or possibly Upper Range R-5). "CONDITION CENSUS" includes 3 very fine specimens, therefore this is **HIGHLY DESIRABLE — RARITY & CONDITION!** The normal S-176 in this condition figures out to about \$900 value; this Unlisted Grippled Edge should substantially increase its value.

- 283—1798 S-181, High numerator, Large Fraction, about fine. **VERY RARE** (Rarity 5). Valued over 3 times "common" or about ..... 125.00
- 284—1798 S-182, Break connects A to ribbon, Extremely fine with attractive brown color. "**CONDITION CENSUS**" is (55-55-45-40-35-30); it is difficult for us to decide which of these applies to this particular specimen! **Valued 4 times "common" plus 50% for "CONDITION CENSUS"** figures out to about ..... 900.00

### CHOICE 1799 CENT (CONDITION CENSUS?)

285—Acquired 7½ years ago with following description: 1799 S-189 Perfect Date, accompanied by detailed analysis of **Walter Breen** (INSTITUTE OF NUMISMATIC AUTHENTICATORS, Berkeley, Cal., 18 August 1964) (he is also collaborator of the Sheldon book **PENNY WHIMSY**). "This certifies that I have examined the accompanying coin, and that I unhesitatingly declare it to be an authentic 1799 cent, Sheldon 189, **GENUINE AND UNTAMPERED**". The piece is from the earliest die state, showing virtually no traces of the diagnostic rim breaks over F AM (only microscopic die crumbings at denticles), and only the slightest trace of the "mint mark" chip between E of ONE and T of CENT. **It is one of the VERY RARE examples showing nearly full borders on both sides together with strong LIBERTY and strong date.** Over 99% of known 1799 cents have either strong LIBERTY and weak date or vice versa, the ratio being about 6 to 1 (the famous Hines AU specimen has strong LIBERTY and weak date, the "Abbey" and Downing 1799's have weaker LIBERTY and strong dates). The few with strong LIBERTY and strong date are mostly well worn, and **THE PRESENT COIN IS BEYOND DOUBT ONE OF THE BEST SUCH KNOWN TO EXIST!**

The circular mark on obverse, at face and in right field, is not a scratch but a pre-striking mark made by the planchet cutter, a device similar to a cookie cutter which stamps blank planchets out of the long thin copper strips. I have seen this type of mark on many other early cents, including some uncirculated ones. It is not an impairment.

In grade, this coin narrowly misses the condition census and some collectors might well believe it to belong in the census. I have seen possibly eight or nine in about the same grade, **BUT THIS WAS THE ONLY ONE SHOWING STRONG "LIBERTY" AND DATE.** Planchet color and texture are characteristic of the last 1798's, the 1799's and the earlier 1800's. In fact, **THIS IS UNUSUALLY GOOD FOR PLANCHETS FROM THIS COLTMAN BROS. & CO. LOT OF PLANCHETS**, as it is less dark than usual and with less roughness than usual, the roughness being localized.

"it is exceedingly difficult to evaluate this rarity since it is **"IN A CLASS BY ITSELF"** with its **SHARP "LIBERTY AND DATE** (as is the Hines AU-50 coin but which has a weak date). The Hines coin fetched \$10,500.00 October, 1959 on an estimated value of \$8,000.00."

This "30" coin brought \$7,250.00 7½ years ago. We note the Guidebook has advanced the value of inferior specimens substantially since then; surely this remarkable specimen now worth over .....10,000.00

## 1800 & 1801 CENTS

- 286—1800 S-197, Famous "Q" variety (die crack thru first "O" makes it resemble "Q"), near Uncirculated. If not one of the two "50" coins in "**CONDITION CENSUS**", then it cannot be far from them. Easily worth ..... 250.00

**AVOID ERRORS --- RECHECK YOUR BIDS**

287—1800 S-199, Thin, Unfinished 00's, fine with some portions closer to Very Fine. <b>VERY RARE (Upper Range R-5).</b> "CONDITION CENSUS" lists the finest as impounded in ANS; the next 5 (in collectors' hands) are very fine down to fine. We cannot be positive as to where this specimen fits in CONDITION CENSUS. If condition "15", then it is either <b>"SECOND FINEST" or "THIRD FINEST" in collectors' hands.</b> Acquired 1960 at \$185; present value 12 years later?	
288—1800 S-206, Wide Date, Crack behind hair, injured die over LIBERTY (causing RTY not to be sharp), <b>Extremely Fine &amp; Sharp.</b> (possibly cleaned but now acquiring a more natural appearing color). <b>RARE (Rarity 4). Possibly the "35" coin listed in "CONDITION CENSUS" as "FINEST KNOWN"!</b> Using Dr. Sheldon's formula to arrive at a value, we come up with a figure of around .....	1,000.00
289—1800 S-208, Break over TY, <b>Extremely Fine (rough planchet).</b> Possibly the <b>"25" coin listed in "CONDITION CENSUS" as "SECOND FINEST".</b> Valued by Sheldon's formula at .....	625.00
290—1800 S-209, Widest Date of year, about fine. <b>VERY RARE (Rarity 5),</b> Valued close to 3 times "common" or close to .....	90.00
291—1800 S-211, Large Planchet, Very good, some minor abrasions. <b>Rare (Rarity 3).</b> Valued double "common" or .....	36.00
292—1800 S-212, Long Fraction Bar, about fine. <b>RARE (Rarity 4).</b> Valued close to 3 times "common" or about .....	75.00
293—1801 S-213, Four Wavy Cracks, very good, edge nick. <b>RARE (Upper Range R-3, Possibly R-4).</b> Valued double "common" or .....	42.00
294—1801 S-215, Very Close Date, Fine & Sharp obverse, very fine reverse; obverse has many fine lines (from wire brush?). <b>EXTREMELY RARE (Middle or Upper Range R-6). "Condition Census" includes 2 very fine coins, therefore this should find an appreciative home.</b> Valued 4 times "common" or about .....	175.00
295—1801 NC-1, Ex. Walter Breen as "4th reported example of this supreme rarity. The others are F-12, VG-8 (in ANS) and BS-1, so this VF (very fair) 3 piece is the 3rd finest known and <b>2ND BEST IN COLLECTORS' HANDS.</b> It is not only the <b>FINEST</b> , but the <b>ONLY AVAILABLE SPECIMEN</b> , since the two are owned by famous collectors who will not let them go." The present edition PENNY WHIMSY lists a v.g.-10 but not this, therefore this rarity must have been discovered before 1958. Acquired 1964 when it was pointed out that the date itself was fine although the remainder was legible for the most part. Cost \$370; now, 8 years later, it should surely be worth more.	
296—1801 S-220, Pointed first 1, FRACTION 1/000, about fine obverse Fine to very Fine reverse (prominent die break at top). <b>"The rarest collectible reverse with an error in the fraction, and this also is a highly prized variety".—Sheldon.</b> <b>VERY RARE (Rarity 4).</b> .....	125.00
297—1801 S-223, FRACTION 1/000, blunt 1's (date), Fine to Very fine (uneven wear).	90.00
<b>1802 &amp; 1803 CENTS</b>	
298—1802 S-225, Die Break below date, very good except LIBERTY weak. <b>RARE (Rarity 4).</b> Valued 3 times "common" or v.g. at .....	40.00
299—1802 S-230, Basically Very Fine & Sharp but eroded surface. Valued 50% more than "common" or v.f. at .....	75.00
300—1802 S-233, T over Y (LIBERTY), basically Very Fine but heavy encrustation. <b>RARE (Rarity 4 mid-range).</b> Valued 3 times "common" or v.f. at .....	150.00
301—1802 S-237, Widest Date of Year, about Very Fine (leaves not fully struck up). Valued 50% more than "common" or v.f. ....	75.00
302—1802 S-239, Prominent Die Crack before race. Very Fine & Sharp bordering <b>Extremely Fine. The DR. FRENCH SPECIMEN in Original box!</b> <b>RARE (Upper range R-3 and perhaps almost R-4). Probably the Very Fine—30 or 35 coin in "CONDITION CENSUS"!</b> Sheldon's formula figures its value as such to be around \$300 to .....	350.00

## 1802 & 1803 CENTS (Cont.)

303—1802 S-242, Stemless (3) Berries, about Very Fine (center not as sharp as outer portions). RARE (Rarity 3). Valued double "common" or v.f. at .....	100.00
304—1803 S-243, STEMLESS WREATH, DOUBLE FRACTION BAR, very good. RARE (RARITY 4). Valued 4 times "common" or .....	60.00
305—1803 S-245, unicorn variety, very good. RARE (RARITY 4). Valued .....	60.00

306—1803 S-247, "Mumps" obverse, virtually <b>UNCIRCULATED</b> , only barest friction, small patch granulation of surface! <b>VERY RARE</b> (Rarity 5). Possibly the "45" or "50" coin in "CONDITION CENSUS". As such, this choice rarity should bring close to .....	1,000.00
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------

307—1803 S-251, Farthest 1 & 3, Short Bar, virtually uncirculated, only barest friction. Probably one of the two "50" coins in "CONDITION CENSUS"! Valued 50% more than "common". An unusually choice specimen which we would not be surprised to see bring around .....	500.00
308—1803 S-258, Large Fraction, arc die crack obverse, <b>Extremely Fine &amp; Sharp</b> (acquired as "About Uncirculated"). Cost \$150 several years ago; should bring more today.	
309—1803 S-265, <b>LARGE DATE &amp; LARGE FRACTION</b> , pointed 1 in date, Very Fine. <b>VERY RARE &amp; "POPULAR"</b> ! We note "Condition Census" includes a specimen only slightly better than this. The true rarity of this is obscured by the fact that so many offered as the "Large Date" prove to actually be the "small date" when examined. In very fine, this coin is indeed very rare. Easily worth over .....	500.00

## CHOICE 1804 CENT

310—1804 Broken Dies (obv. & rev.) variety, about <b>Extremely Fine</b> without the abrasions which seem to plague so many we have seen in our 40 years as professional numismatists! <b>HIGHLY DESIRABLE EXAMPLE OF THE SECOND RAREST DATE LARGE CENT!</b> We note the consistent rise in value of this rare date and cannot see any reason why this same pattern should not continue. In this remarkable state of preservation, it should bring over 1,750.00	
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--

## \$500 & \$1000 SMALL SIZE FEDERALS, 1928-1934 SERIES

The printing of these denominations ceased in 1945 and all outstanding were recalled. Judging from how few are offered, the rarity of these has been greatly underestimated.

578—\$500 1928 GOLD OBLIGATION, New York, dark green seal, new, crisp! RARE, PARTICULARLY SO CHOICE. We sold a "near new" specimen several years ago for \$1,250 therefore this choicer specimen should surely bring over \$1,500—possibly closer to ..... 2,000.00

579—\$500 1928 Chicago, RARE LIGHT GREEN SEAL, very fine (paper clip marks). Probably worth at least ..... 1,250.00

580—\$500 1934-A NEW TYPE, New York, new, crisp, SUPERB! A rarity in this pristine condition. A perfectly centered, bright color note as choice as the day it was printed! Surely such a specimen should be worth at least ..... 1,250.00

581—\$1,000 1934 San Francisco, Plate 1, near new, crisp. Released 1936-1942, during the Depression. We doubt if more than a very few were retained by collectors when they were recalled in 1945. Valued by owner at \$2,000.00. So few have been offered that we do not know if this price is high or low. It may well be some years before another specimen is offered in a sale.

582—\$1,000 1934-A Philadelphia, extremely fine with bright color and well-centered. RELEASED ONLY ONE YEAR, July 1943 to July 1944!

### UNIQUE, UNPUBLISHED \$1 OCTAGONAL CALIFORNIA GOLD DOLLARS

647—\$1 OCTAGONAL: LIBERTY HEAD, in original envelope of Walter Breen described "1853, Obv. B-1, rev. Crude eagle with scroll, CALIFORNIA GOLD 1853, the 53 inverted; ONE DOL below. UNPUBLISHED. UNIQUE." Slight friction and minute abrasions evident when closely examined. We are inclined to dub it "OFFICE BOY REVERSE" due to the crude workmanship of letters and eagle. Acquired from a sale over 5 years ago at \$1,625.00. Present value?

**656—\$½ OCTAGONAL: WASHINGTON HEAD, 1872 underneath; "CALIFORNIA CHARM ½ GOLD", B-64A variety, PROOFLIKE.** The word "Charm" has caused some difference of opinion. The Washington Charm pieces are the only "charm" pieces included in the "California Gold" series. While the various authorities seem to believe these were struck during 1872, one has voiced the possibility that they did not circulate as coins. The older authorities included them as coins (during a shortage of coins, it is possible that it could have circulated for its intrinsic value). Valued by Burnie at 7 times "common" varieties or .....

## \$20 U.S. ASSAY OFFICE OF GOLD SAN FRANCISCO

679—UNITED STATES OF AMERICA TWENTY D. around eagle with 900 THOUS. above; UNITED STATES ASSAY OFFICE OF GOLD SAN FRANCISCO CALIFORNIA 1853 on reverse, UNCIRCULATED! From a 1960 sale described "INVERTED V's in AMERICA variety instead of A's. RARE (\$1,250.00)." Surely this unlisted Major Variety 12 years later worth much more.

We maintain a large stock of U.S. coins & currency not contained in our Mail Sales. Use the back of the Bid Sheet for your want list.

## PROOFLIKE \$20 U.S. ASSAY OFFICE

680—\$20 1853 Similar to above but usual dies with normal A's, **PROOF SURFACE, SHARP STRUCK WITH WIRE EDGE!** The original A.N.A. Convention Sale envelope of some years back is with the coin, as well as its description where it was valued \$4,500.00. In this era of "Exceptional Prices For Exceptional Coins", it is difficult to venture an opinion what this remarkable specimen will now bring. The owner prized this quite highly and has a note "I refused \$5,000.00".

### \$500 1882 GOLD NOTE — UNLISTED SIGNATURES

1145—\$500 F1216-b?, 1882 Bust Lincoln (unusual bust not generally seen), small red seal, <b>LYONS-TREAT</b> , new appearing but close examination reveals faint crease! Friedberg lists F1216 as Parker-Burke and F1216-a as Teehee-Burke, followed by F1217 as 1922 Speelman-White. Surely this rarity worth at least .....	5,000.00

## GOLD DOLLARS

Trindex of Coin World reveals that gold dollars have advanced from 296 a year ago to 358 last month and now (Sept.) 409. At the present rapid rise in values, they should be substantially higher at the time of this sale.

1219—1849 OPEN WREATH, rare small head without "L" on truncation of bust (similar reason as 1864 1c without L and with L) near Uncirculated. ONLY 1,000 STRUCK! A major variety which we feel will eventually be listed in the Guidebook. Unc. now worth \$400; this specimen worth proportionately.	
1220—1849 OPEN WREATH, Large (usual) Head with "L" on truncation of bust, uncirculated with pleasing patina. Popular "Type".	150.00
1221—1849 CLOSED WREATH, PROOFLIKE WITH RAISED EDGE BOTH SIDES! A lovely specimen acquired as "PROOF" over a decade ago at \$500.00. Since it does not have all the criteria generally associated with proofs, we are hesitant to accept it as a full proof. Perhaps it is a "Specimen Strike".	
1222—1849-C Very Fine obverse but reverse actually Extremely Fine. RARE.	300.00
1223—1849-D Extremely Fine with much luster. RARE. Catalogs \$325 but market now seems to be closer to	400.00
1224—1849-O Extremely fine, pinpoint nicks. Scarce.	90.00
1225—1850 Extremely fine, pinpoint nick. Scarce.	90.00
1226—1850-C Extremely fine with some luster. Choice & RARE!	550.00
1227—1850-D Very fine. RARE. Seldom offered.	300.00
1228—1851 Extremely fine.	80.00
1229—1851 GLITTERING PROOFLIKE, SHARP STRUCK! We have seen a similar specimen called a "Proof" but we prefer to call it a "Presentation Specimen" or "Special Care Specimen". Regardless of what it is called, we feel this remarkable specimen will exceed	500.00
1230—1851-C Near Uncirculated, only barest friction. RARE.	325.00
1231—1851-D Uncirculated with pleasing patina. RARE.	575.00
1232—1851-O Fine obverse, extremely fine reverse.	65.00
1233—1852 Extremely fine & sharp.	90.00
1234—1852-C Extremely Fine but evidence on reverse of its having been mounted. RARE. Catalogs E.F.	350.00
1235—1852-D Near Uncirculated with luster. RARE!	500.00
1236—1852-O Extremely fine. Scarce.	95.00
1237—1853 Extremely fine and sharp.	90.00
1238—1853-C Extremely Fine & Sharp with patina. RARE.	350.00
1239—1853-D Extremely fine, tiny nick. RARE.	350.00
1240—1853-O Extremely fine & sharp, some luster. Scarce.	95.00
1241—1854 Type I, Uncirculated with some patina, Sharp Struck. SCARCE.	150.00
<div> <div>1242—1854 TYPE II, UNCIRCULATED, SHARP STRUCK, close examination reveals usual quota of minor marks in field. VERY RARE. Specimens such as this but without the minor marks now bring around \$1,500; this one worth about</div> <div>1,000.00</div> </div>	
1243—1855 Extremely Fine. SCARCE.	375.00
1244—1855 Duplicate, appears extremely fine but close examination reveals removal of solder.	
1245—1855-C Extremely Fine, traces of luster. RARE! Seldom offered.	750.00
1246—1855-O Virtually Uncirculated, only barest friction, 8 while not fully struck up, is still sharper than usually seen. RARE!	750.00
1247—1856-S Extremely Fine. RARE.	550.00
1248—1856 TYPE III, LARGER HEAD, scarce Upright 5 variety, near Uncirculated. LOW ISSUE!	125.00
1249—1856 Usual slant 5 variety, Uncirculated with some patina, Sharp Struck!	150.00
1250—1857 Glittering Prooflike but close examination leads us to believe it was cleverly cleaned to make it appear as a "Proof".	
1251—1857-C Extremely Fine. RARE.	400.00
1252—1857-D Extremely Fine. VERY RARE. Seldom offered	775.00
1253—1857-S Extremely Fine & Sharp but has rub spot on cheek. E.F. catalogs \$185, this worth proportionately.	

## GOLD DOLLARS (Cont.)

1254—1858-S Extremely Fine & Sharp but rub spots and nick in field. E.F. catalogs \$210, this worth proportionately.	
1255—1859 Near Uncirculated but has short, thin scratch.	85.00
1256—1859-C Fine (some minor abrasions, etc.). RARE. Catalogs low at only	160.00
1257—1859-D Very Fine. RARE!	350.00
1258—1859-S Very Fine. SCARCE.	175.00
1259—1860 Prooflike but faint rub spot in field, some patina.	125.00
1260—1860-S Near Uncirculated, pinpoint nick in field. SCARCE.	225.00
1261—1861 Virtually Uncirculated, only barest friction.	100.00
1262—1862 Prooflike appearing but actually has been polished to resemble a proof.	
1263—1864 Near Uncirculated. RARE CIVIL WAR COIN! Seldom offered.	400.00
1264—1866 Appears to be virtually Uncirculated but close examination with glass reveals clever repair. RARE. If not for the repair, this would be a \$300 coin; this worth proportionately.	
1265—1868 Extremely Fine. SCARCE.	250.00
1266—1869 Extremely Fine appearing but close examination reveals clever repair. SCARCE. E.F. catalogs \$225; this worth proportionately.	
1267—1870 Virtually Uncirculated, only barest friction. SCARCE.	250.00

1268—1870-S **BRILLIANT PROOFLIKE SHARP STRUCK GEM!** A remarkable specimen of this rarity. The choicest specimen we can recall seeing in our 40 years as professional numismatists! Easily worth over \$1,750, perhaps closer to ..... 2,000.00

1269—1871 Near Uncirculated, tiny nick on cheek. RARE.	250.00
1270—1872 Extremely Fine. RARE.	250.00
1271—1873 Open 3, Uncirculated with some patina. Ad 9/20/72 Coin World for gem at	145.00
1272—1874 Uncirculated with some patina. Same ad for gem at	145.00
1273—1875 Very Fine appearing but has been repaired at edge. VERY RARE DATE. Catalogs \$1,000; this worth proportionately.	
1274—1876 Extremely fine. RARE.	250.00
1275—1877 Very Fine. SCARCE.	150.00
1276—1878 Brilliant Prooflike Sharp Struck Gem! RARE! A lovely specimen worth at least	450.00

1287—1888 Brilliant Uncirculated with slight patina. Recent ad	135.00
1288—1889 Very Fine & Sharp. Last year regular gold dollars.	100.00

## QUARTER EAGLES (\$2½ GOLD)

The advance in prices for quarter eagles has been quite pronounced during the current year with many setting new records. Prices listed are based upon current values.

We maintain a large stock of U.S. coins & currency  
not contained in our Mail Sales. Use the back of  
the Bid Sheet for your want list.

## THE RAREST QUARTER EAGLE 1798 EXTREMELY RARE 5 BERRY REVERSE

1289—From a New York sale several years ago described “1798 WIDE DATE, 5 BERRIES ON BRANCH. RARITY 7 (4 to 12 known). Almost Uncirculated, indeed, virtually so, there being but the faintest cabinet friction on the cheek, and that scarcely perceptible without a good lens. Minor bag-marking is apparent, together with a hairline planchet flaw from the cap to the L. So far as is known, this choice specimen is the **SECOND FINEST AVAILABLE** (and very nearly equaling the finest known). The next best is a mere Very Fine. Worth whatever it's bid up to, and that might very well be \$5,000.00.” It brought \$4,600.00 there.

“Varieties of U.S. Quarter Eagles” by Breen states only 480 of this **MAJOR VARIETY** were struck in 1799 and lists **ONLY A TOTAL OF 5 SPECIMENS KNOWN!** The Scott Catalogue (compiled over 2 years ago) lists it “R7” with a value of \$3,750 extremely fine. The more readily available 1796, 1797 and other dates are listed “Unc.” but not this date! The Guidebook lists the more readily available 1798 (close date & 4 berries) at \$4,750 unc.

The Scott Catalogue lists both Major Varieties of 1798 (close date-4 berries struck in 1798 and Wide Date-5 Berries struck in 1799) and we believe the Guidebook will also include both in coming editions as they have both Major Varieties of 1804.

**A MOST UNUSUAL OPPORTUNITY TO ACQUIRE WHAT COULD VERY WELL BE “THE RAREST QUARTER EAGLE”.** It is certainly rarer than the publicized 1841 of which two are currently available (one is x.f./v.f. at \$16,500 and the other is Proof at \$25,000.00). Since it is not as yet included in the Guidebook (and not all collectors know of its true rarity) we believe it will only bring “close to \$10,000.00”. Once it is included in the Guidebook, we feel it will rise to its true value “in the company of such publicized rarities as the 1841”.

### 1804-1805-1824 QUARTER EAGLES (\$2½ GOLD)

1290—1804 Obverse Design altered from 6x7 stars to 8x5 stars; reverse is the famous “14 Stars Error Die”, Extremely Fine & Sharp with traces of luster. **RARE.** Popular for “type”. The current strong demand should send it to at least ..... 2,000.00

1291—1805 Design altered again from the above 8x5 stars to 7x6 stars (possibly to conform with the similar arrangement in the silver coinage). **A lovely specimen acquired as “UNCIRCULATED” but close inspection with glass reveals just the barest “cabinet friction”, Superb Luster! VERY RARE IN THIS REMARKABLE STATE OF PRESERVATION!** Only 1,781 struck, thereby placing it among the Rarest Of The Early Quarter Eagles. Scott Catalogue gives it a two-year-old value of \$1,500 in V.F. but does not price it in the higher states of preservation! Surely this rarity in this amazing condition should now (2 years later) bring at least ..... 3,500.00

1292—1824 OVER 21, New Type, virtually Uncirculated with barest friction, Sharp Struck with much luster. **VERY RARE SO CHOICE!** Scott in its two-year-old catalogue states “Very Rare In Unc.” and lists it unc. at \$3,000.00. The current market for unc. (if it were available) would be at least ..... 4,000.00

### 1830 PROOF QUARTER EAGLE (\$2½ GOLD)

1293—1830 Redesigned Type with Narrower Planchet, Beaded Borders, Smaller Date, Stars & Letters. From a New York Sale described as “**BRILLIANT PROOF, truly glittering surfaces with delicate toning at the centers. ONLY THREE PROOFS REPORTED BY BREEN, NONE OF WHICH WILL EVER BE AVAILABLE TO COLLECTORS.** The present offering may thus represent a unique opportunity for the discriminating collector.”

After carefully considering the “Exceptional Prices Realized For Exceptional Coins” in the current market we would not be surprised to see this Great Rarity bring in the “5 figures”.

## 1834-1839 NO MOTTO QUARTER EAGLES

1294—1834	Appears to be Uncirculated but close examination reveals faint rubbing in field. Recent advertised prices for choice Uncirculated range from \$525 to \$595; this worth proportionately.	
1295—1835	UNCIRCULATED WITH CONSIDERABLE PROOFLIKE SURFACE, new hub with taller head! RARE. Easily worth .....	750.00
1296—1836	"Booby" head type of '34, near Uncirculated. Choice Unc. sells \$500 to \$600; this worth proportionately.	
1297—1836	Head of '35, near Uncirculated. Unc. sells \$500 to \$600; this worth proportionately.	
1298—1837	New hub without forelock, hair above headband slopes back more than on preceding, near Uncirculated. LOW ISSUE. Choice Unc. worth over \$600; this specimen worth about half.	
1299—1838	Head similar to 1834 Booby Head, virtually Uncirculated, only barest friction. LOW ISSUE. Unc. worth over \$600; this specimen worth over half.	
1300—1838-C	MINT MARK ABOVE DATE, Double "C" with original "C" too low (touches date) virtually Uncirculated, only barest friction. THE FIRST BRANCH-MINT QUARTER EAGLE. Quite popular for this reason (also in demand as "type" — mint mark on obverse). VERY LOW COINAGE! Unlike the 1839 (which was struck at all 3 branch-mints) this is the only branch-mint 1838 quarter eagle! Rare in any condition but especially in this choice state of preservation. We would not be surprised to see this rarity exceed .....	750.00
1301—1839-O	Mint Mark Obverse, near Uncirculated. Popular for "type". LOW ISSUE! .....	350.00

## 1840-1907 CORONET QUARTER EAGLES (\$2½ GOLD)

1302—1840-C	Mint mark reverse, near Uncirculated, pinpoint nick reverse field. RARE. Easily worth over .....	350.00
1303—1841-C	Extremely Fine, rub spot in field. In strong demand for date as the 1841 is "impossible". Present market seems to be a bit over .....	300.00
1304—1842-O	GLITTERING PROOFLIKE WITH SOME PATINA, RAISED EDGES! A rarity in this remarkable condition. Low issue.. Easily worth .....	350.00
1305—1843-D	Near Uncirculated with luster. SCARCE. ....	250.00
1306—1844-D	Larger Date & Larger D, extremely fine & sharp. Scarce. ....	200.00
1307—1845-D	Near Uncirculated with some luster. SCARCE! .....	275.00
1308—1846-D	Extremely Fine with traces of luster, altho center of reverse seems to be closer to very fine. Scarce. ....	185.00
1309—1847	Much Larger Date, Uncirculated with some patina; close examination with glass reveals faint rubbing. Low coinage. Easily worth over .....	125.00
1310—1848-D	Extremely fine, rub spot in field. RARE. ....	300.00
1311—1849	OVER 8? (acquired as such) the 9 Appears To Be Over 8; we have seen this variety described by several leading dealers as an overdate, but we cannot be positive, near Uncirculated. LOW TOTAL ISSUE. As a regular 1849, this should now be worth about \$125; as an overdate, it should bring somewhat more.	
1312—1850	PROOF SURFACE BOTH SIDES & RAISED EDGES but rubbing in fields. Acquired over a decade ago as "RUBBED PROOF" at \$750, however we cannot be positive as to its being intentionally struck as a "proof".	
1313—1851-O	Famous "DOUBLED DATE" (first date punched sloping down to right) near Uncirculated. Popular with high auction records. Should bring about .....	150.00
1314—1852	Extremely fine & sharp. ....	70.00
1315—1853	Brilliant slightly orange Uncirculated. Scarce thus. ....	100.00

## 1848 "CAL." QUARTER EAGLE

1363—1848 "CAL." over eagle, Very Fine appearing but closer examination reveals its use for jewelry (evidence of solder removal from reverse and edge). **THE FIRST COIN STRUCK FROM CALIFORNIA!** Considered by some as "The First U.S. Commemorative"; some consider it as "The First California Gold Piece" (as well as part of the regular \$2½ gold series). The military governor of California, Col. R. B. Mason, sent 230 ounces of gold in 1848 to U.S. Secretary of War Marcy. The U.S. Mint struck this gold into quarter eagles. The distinguishing mark "Cal." was punched above the eagle on the reverse while the coins were still in the die. The popularity of this coin is reflected in its constant rise in value. The current Guidebook lists it at \$3,200 in very fine; this specimen worth proportionately.

## INDIAN HEAD QUARTER EAGLE SET, ETC.

1373—1881 GLITTERING PROOF but close examination reveals some rubbing. Only 500 struck for circulation plus 54 proofs! **THE FOURTH LOWEST COINAGE OF ALL THE \$3 GOLD 1854-1889!** Greatly undervalued at its low catalog of only \$2,100.00. The current strong demand for gold should bring about a more proper valuation of this rare date in the next catalog. Surely this rare date should be listed in proof at \$3,000 or more.

1374—1888 Uncirculated with Wire Edge but close examination with glass reveals just the faintest rub. Catalogs \$450 but choicer specimens bring \$600; this worth closer to .....	450.00

# EAGLES (\$10 GOLD)

- 1398—1799 GLITTERING UNCIRCULATED but close examination with glass reveals just the faintest “cabinet friction” (from sliding in the old coin cabinets). An attractive specimen of this Eighteenth Century coin. We note a similar specimen recently brought \$1,500; in this rapidly rising market for choice “type” coins, it could realize somewhat more by the time this sale takes place.
- 1399—1801 Larger Obverse Stars, extremely fine. The current “market” seems to be around \$1,200; the rapidly rising market could very well send it somewhat higher.
- 1400—1839 Type '38 with TIPPED BUST & LARGE LETTERS, extremely fine. RARE RARE TYPE ISSUED ONLY ABOUT A YEAR (late 1838 & early 1839)! The strong demand for this type should send it to about \$800; perhaps closer to 850.00

1421—1851 Similar obverse except **887 THOUS.** (the fineness of U.S. gold was 900 thous). **The reverse was changed by adding "50" in the center.** Similar with "AUGUSTUS HUMBERT UNITED STATES ASSAYER OF GOLD CALIFORNIA 1851" impressed in edge. **A SUPERIOR SPECIMEN OF THIS RARITY!** The few edge nicks of this large soft gold coin are rather minor, as are also the nicks on the surfaces. Only slight wear on the eagle of the obverse and the "50" of the reverse is sharp and clear! **This is only the third specimen we have handled and is THE CHOICEST SPECIMEN OF THIS RARE "TYPE" TO PASS THROUGH OUR HANDS IN OUR 40 YEARS AS PROFESSIONAL NUMISMATISTS!**

These "ingots" (U.S. Gov't. name), "slugs" (several placed in a sack & used to "slug" someone?) or "Quintuple Eagles" (eagle is \$10, double-eagle is \$20) circulated rather extensively, thereby acquiring many bruises and abrasions from being thrown on the saloon bars, dropped on floors, banged on tables in commercial transactions, etc.. California believed in "hard money", therefore very little paper money circulated. Since these \$50 gold pieces contained slightly more gold than the face value, it was inevitable that they were melted for their intrinsic gold metal value. It is remarkable that any have escaped the melting pot, particularly in choice state of preservation.

THE \$50 GOLD "SLUG" IS THE MOST REPRESENTATIVE OF THE "PRIVATE & TERRITORIAL GOLD OF THE WEST" AS THIS DENOMINATION WAS STRUCK ONLY IN CALIFORNIA FOR A RELATIVELY SHORT PERIOD AS A TEMPORARY EXPEDIENT TO ACCOMODATE THE CALIFORNIANS UNTIL THE ESTABLISHMENT OF A PERMANENT BRANCH MINT (as was done in 1854).

If this remarkable piece were in our stock, we would not hesitate to price it at ..... 10,000.00

1422—1852 **AUGUSTUS HUMBERT UNITED STATES ASSAYER OF GOLD CALIFORNIA** on obverse (rather than sunk in edge as on above two coins) near outer surface, **887 THOUS., "FIFTY DOLLS."** (rather than "50D C" as on above two coins). **A SUPERIOR SPECIMEN!** Eagle has some wear on high center points and wing tips; the outer legend has some wear but is sharper than generally seen (most come quite weak to the point that a number are partially illegible), reverse quite sharp and choice with only slight friction; only a few of the characteristic minor abrasions which plague these soft large gold coins. **The 1852 Humbert is many times rarer than the 1851 Humberts** (struck for many months and include many varieties). **or the later U.S. Assay Office type. These were struck only a few weeks when the design was changed to "UNITED STATES ASSAY OFFICE OF GOLD"** to indicate the reorganization of the company which took over the coinage contract for the U.S. Gov't. This choice specimen well worth \$3,750 if not actually closer to ..... 4,000.00

**Consignment E — Carolina  
BECHTLER GOLD OF CAROLINA 1831-46**

A more detailed coverage of this series is given in "Scott's Comprehensive Catalogue and Encyclopedia of U.S. Coins" (copyright 1970) now somewhat behind the present "boom" market. Comparison of the 1966 (19th edition) Guidebook with the present 1973 (26th edition) indicates practically no price changes in this historical series in the intervening 7 years. During this 7 year period, additional collectors have appeared on the market. The prices they have paid, particularly in the last year, for the few specimens that have come upon the market, indicates a sharp revision in the currently listed values in the Guidebook and Scott Catalogue.

1423—ONE DOLLAR CAROLINA, 28gr. N reversed in ONE, plain edge, near Uncirculated with much luster, usual minor imperfections which seem to accompany most of the specimens we have seen in our forty-years as professional numismatists. Popular as the first gold dollar to circulate in the U.S. .... 300.00

## BECHTLER GOLD OF CAROLINA 1831-46 (Cont.)

1424—**ONE DOLLAR N. CAROLINA, 28gr. WITHOUT STAR** & normal N in ONE, reeded edge, extremely fine and sharp with traces of luster, only a very few of the minor imperfections which seem to accompany this series, planchet a bit short as made during its striking. **ONLY "ABOUT 20 to 25 SPECIMENS" SAID TO BE KNOWN!** More desirable than the specimen in our Sept. sale which realized \$770; surely this choice specimen now worth over ..... 1,000.00

1425—Similar but **EXTREMELY RARE VARIETY WITH 28G CENTRALLY LOCATED** (not in Guidebook) Extremely Fine and Choice except for minor imperfection in field. Our records indicate that **THIS IS THE FIRST SPECIMEN OF THIS RARITY TO APPEAR IN ALL OUR 299 SALES!!** Surely this remarkable coin worth over \$2,000; perhaps closer to ..... 2,500.00

1426—**ONE DOLLAR N. CAROLINA, 30gr.,** reeded edge, virtually Uncirculated, only barest friction. Easily worth ..... 375.00

1427—**5 DOLLARS C. BECHTLER. AT RUTHERF., 134gr. 21 carats CAROLINA GOLD,** Large \*, plain edge, near Uncirculated with some luster, pinpoint edge nick, yellow gold, **UNUSUALLY SHARP STRUCK!** A remarkably sharp specimen which generally comes from a "worn die" (Scott). Easily worth over ..... 1,000.00

1428—Similar but **INVERTED REVERSE,** orange gold and top of INA not as sharply struck as balance of coin, only faintest signs of friction, **PROOFLIKE** luster. A remarkable specimen of this variety which should now realize close to .... 1,000.00

1429—**AUGUST BECHTLER COINAGE 1842-46. 1 DOL. A. BECHTLER, CAROLINA GOLD 27gr. 21c.** virtually Uncirculated, only barest friction, Raised Edge. Popular. Probably now realize around ..... 350.00

1430—Duplicate in usual very fine condition. .... 150.00

1431—**5 DOLLARS A. BECHTLER RUTHERFORD, CAROLINA GOLD 134.G; 21. CARATS,** reeded edge, near Uncirculated with some luster, usual minor imperfections typical of these privately produced coins. The last specimen of this variety we had realized \$525; this somewhat choicer specimen should now exceed ..... 750.00

1432—**5 DOLLARS A. BECHTLER, 141 GR 20 CARATS reverse, BRILLIANT PROOF WITH RAISED EDGE BOTH SIDES!** The famous and popular restrike from original dies made around the turn of the century. Acquired 1966 at \$1,150; probably now realize over ..... 1,500.00

## BECHTLER GOLD OF GEORGIA

1433—**\$2.50 GEORGIA GOLD, 64gr. 22 carats (uneven 2's) INVERTED V's for A's,** plain edge extremely fine and sharp with Raised Edge. **RARE.** Acquired some years ago at \$500; should now bring closer to ..... 1,000.00

1434—**\$2.50 GEORGIA GOLD, 64gr. 22 carats; RARE VARIETY WITH EVEN 22, UNCIRCULATED! EXTREMELY RARE IN THIS CHOICE STATE OF PRESERVATION.** The choicest specimen we can recall seeing in all our 40 years as professional numismatists! After carefully weighing the supply and demand factors, in addition to the present "strong" market for top-grade specimens, we would not be surprised to see this rarity realize close to 2,500.00

1435—**5 DOLLARS GEORGIA GOLD, Rutherf. 128gr. 22 carats,** virtually Uncirculated, only barest friction, luster. An unusually choice specimen remarkably free from the usual minor abrasions which seem so characteristic of Bechtler coinage. Acquired over a decade ago at the A.N.A. convention in Atlanta, Georgia. It has \$1,000 marked on the envelope. Judging from the few specimens we have seen over the years, we would not be surprised to see this realize over ..... 1,250.00

1794 SILVER DOLLAR

Judging from the amount of "want-lists" on hand, this date is high up on the list of "Most Wanted Silver Dollars". This is understandable, as in addition to being the first year of coinage, it is also a classic rarity.

1436—1794 Very good with typical weak impression of left side (lower left stars thru bottom of date & tops of ITED STATES OF) tiny nick. Kosoff in describing the Alex Shuford coin (May 1968) states: **"Only a small number were minted and probably less than 2 dozen survived. There is a characteristic weakness in the striking of the left side. The reverse has an unusual number of adjustment marks. Very Fine 25. Very Rare. \$5,500.00."** This very good specimen is one of the VERY FEW WITHOUT THE USUAL "MINT ADJUSTMENT MARKS" (done at the mint to bring down to its proper weight & save the cost of melting & recoining). Scott states **"Always weakly struck at left on both sides."** In checking back, we note this coin has **REMAINED UNCHANGED IN THE GUIDEBOOK FOR THE LAST 6 YEARS** (20th edition thru present 26th edition) in spite of the fact that all other dates have been advanced in values! Possibly its rarity prevents it from appearing often enough to set new records. One of the most undervalued of all the silver dollars!  
This specimen was acquired at the "bargain" price of \$1,575 nearly 4 years ago (early 1969) when it cataloged \$2,100.00. We believe the catalog value for V.G. should now be at least \$2,500 or possibly ..... 2,750.00

1795 TYPE 1794 FLOWING HAIR

1437—1795 B-6 Variety with 3 leaves under eagle's wing, date spaced 1 79 5, extremely fine although the reverse is a bit sharper, being closer to uncirculated (only slight friction). Cataloged in Bolender ("U.S. Early Silver Dollars From 1794 to 1803") in the 1969 Revised Valuation List at \$1,000 E.F. and \$2,250 Unc.; surely several years later, in this rapidly rising market, this choice rarity should bring closer to ..... 1,500.00

1438—1795 B-13 Variety with 2 leaves under wing (as in the famous 1794) extremely fine (sharp but obverse "brushed"). Bolender (in his book) states **"Two others known to the author, and no others have been heard of in 40 years."** Acquired early 1967 at \$1,150; surely this great rarity now worth closer to ..... 2,000.00

1795-98 DRAPED BUST & SMALL EAGLE

1439—1795 B-14, Typical strike with center not as sharp as outer portions; LIBERTY, stars, date of obverse & legend of reverse Very Fine; bust & eagle closer to fine. Catalogs fine \$350 & very fine \$500, this specimen now worth over its "catalog" of ..... 425.00

1440—1796 B-2 Small date small letters, extremely fine & sharp with pleasing golden bluish patina, typical strike with center (top hair strands not fully struck up) softer struck than outer portions (acquired as "about Uncirculated with soft struck center"). Actually, what appears to be wear in all probability is partly due to the center not being fully struck up. **The rarest of the 4 obtainable varieties** (B-3 only 3 known to Bolender). The rarity is confirmed by Scott listing the "small date and letters" "type" at somewhat more than the other two major "types" of 1796 and stating **"Excessively Rare in unc."** and not listing it in better than very fine condition. We feel this rarity in this remarkably choice state of preservation worth upwards of ..... 1,250.00

1441—1797 B-3, 10 Stars left, 6 right (Tennessee admitted as 16th state in 1796) very good obverse but reverse closer to fair. The Scarcest Date 1795-1803 with only a total of 7,776 struck consisting of 3 major "types" in 1797. Catalogs v.g. \$260, this worth the good price of ..... 180.00

## 1795-98 DRAPED BUST & SMALL EAGLE (Cont.)

- 1442—1798 B-1, "Transitional" (obverse of later 1798 with 13 stars & reverse of 1797 with small eagle) Extremely Fine & Sharp with lovely golden bluish patina. Bolender states "This variety is RARE and also in good demand for type sets." Scott states "Extremely Rare in unc.". The Guidebook lists E.F. at \$850; this attractive and choice specimen worth well over ..... 1,000.00

## 1798-1803 HERALDIC EAGLE REVERSE

- 1443—1798 B-4, 13 Stars obverse (it was realized how impractical it would be to add a star for each new state) KNOB ON 9, Extremely Fine, attractive patina, pinpoint nick. Bolender states "EXTREMELY RARE"! A choice specimen of this Great Rarity, easily worth ..... 850.00
- 1444—1799 OVER 98, B-1 variety with 13 stars rev., very close to Uncirculated with only barest friction, interesting tiny break on edge which helps give "personality" to this series, pleasing golden bluish patina. VERY RARE "TYPE" (Bolender "Rarity 5"). Scott states "Extremely Rare in unc." and does not list it in better than very fine. Scott lists it V.F. at almost double the value of Rarity 1 varieties (the commonest). The Guidebook lists all varieties of 1799 at exactly the same price; which of course, is ridiculous. Using the ratio of values in Scott, this "type" coin should be listed in the Guidebook at close to \$2,000 for unc. & about \$850 for E.F.; this particular specimen should then be worth at least ..... 1,250.00
- 1445—1799 B-5, Normal date, rather close to the "fine" for which acquired. Rarity 2. The "commonest" (rarity 1) catalogs fine ..... 220.00
- 1446—1799 B-23, Stars 8 left, 5 right (THE ONLY SUCH DIE IN ALL THE EARLY DOLLARS) Extremely Fine & Sharp with pleasing blue patina but close examination with glass reveals some old rubbed spots in field. Bolender lists this "type" coin as VERY RARE (Rarity 5). Scott lists it at 50% more than "common" varieties in v.f. and at close to double for unc. Therefore, this "type" rarity should be worth over ..... 750.00
- 1447—1800 Good although the obverse is a bit sharper than reverse. Cat. .... 100.00
- 1448—1800 B-14 "Dotted Date", very good. Rare (Rarity 3). "Common" varieties (R-1) catalog \$125, therefore this worth ..... 175.00
- 1449—1800 B-16b, Let. T in UNITED Double Cut, later die state with some feathers and some letters of motto not fully struck up, Extremely Fine with traces of luster. Rare (Rarity 3). "Common" varieties (R-1) catalog \$425, therefore this worth closer to ..... 600.00
- 1450—1802 B-6, Narrow normal date, Extremely Fine with pleasing golden bluish luster Catalogs \$425 but "market" now seems to be closer to ..... 500.00
- 1451—1803 B-4, Small 3, Extremely Fine, obverse appears to have been cleaned some years ago but now acquiring a more natural patina; reverse a lovely natural golden patina and a nice sharp strike. Rare (Rarity 3). "Common" varieties (R-1) catalog E.F. \$425, therefore this worth closer to ..... 600.00

## LIBERTY SEATED DOLLARS

"Tele-Quotes" refers to Numismatic News' current value guide. More up-to-date than prices gathered a year ago for Guidebook.

- 1455—1845 Extremely Fine, rub spot in field. LOW ISSUE. Lists double the value of above "commoner" dates in very fine; therefore present value for E.F. should be around ..... 175.00
- 1456—1846 Virtually Uncirculated, only barest friction but rubbed in fields. .... 100.00
- 1457—1847 Uncirculated golden, Sharper Struck than most, slightly prooflike surface. Worth over the Tele-Quotes price unc. of ..... 275.00
- 1458—1849 Extremely fine (obverse about E.F., reverse sharp E.F.). .... 100.00
- 1459—1853 Uncirculated golden, Sharp Struck! Rare date as most melted for their higher silver value. .... 450.00

1460—1856 Virtually Uncirculated, only barest friction, lovely blue prooflike patina. SCARCE. ....	250.00
1461—1857 PERFECT BRILLIANT PROOF! A FANTASTIC SPECIMEN OF THIS RARITY. FAR RARER THAN THE PROOF 1858 WHICH CATALOGS \$2,000; IN THIS REMARKABLE CONDITION IT IS WORTH CLOSER TO .....	2,500.00
1462—1858 GOLDEN BLuish PROOF WITH WIRE EDGE. RARE! CATALOGS \$2,000 BUT RECORDS THE LAST TWO YEARS OF \$2,100 & .....	2,200.00
1463—1859 Glittering golden bluish Prooflike (close examination with glass reveals the characteristic minute "bag-marks" which help distinguish uncirculated from proofs, also hair & headband of Liberty not fully struck up). Tele-Quotes lists unc. at \$275; surely this specimen worth .....	350.00
1464—1859-O Virtually Uncirculated, only barest friction, usual "bag-marks". Tele-Quotes unc. \$275; this one worth closer to .....	150.00

1466—1860 BLUE PROOF, close examination with glass reveals tiny nick. SCARCE. ....	350.00
1467—1860-O Glittering golden bluish PROOFLIKE, SHARP STRUCK (only the "bag-marks" prevents the use of superlatives). Tele-Quotes unc. \$275; surely this remarkable specimen worth over .....	350.00
1468—1864 RAINBOW COLOR PROOF WITH WIRE EDGE! RARE. ....	500.00
1469—1868 WITH MOTTO, Glittering Bluish COMPLETELY PROOFLIKE, SHARP STRUCK if not for the characteristic "bag-marks", it could easily be mistaken for a proof). RARE THUS. Tele-Quotes unc. \$275; this remarkable specimen should then be worth .....	400.00
1470—1870-CC Glittering bluish Prooflike, faint rub and usual minor abrasions takes it out of the \$750 class, bringing it down to somewhere around \$400 to \$500. Popular "First Year Of Carson City Mint".	
1471—1872-S Near Uncirculated with attractive golden luster. LOW ISSUE. Unc. now worth \$500; this worth proportionately.	
1472—1872-CC Extremely Fine with attractive patina. RARE. ONLY 3,150 STRUCK A CENTURY AGO! Popular Carson City coinage. Well worth .....	750.00

# IMPORTANT MESSAGE

For years we have counseled and helped advise those wishing to acquire coins and currency as an investment. We define investors as those willing to adopt a program envisioning a minimum of several years. Suffice to say — that in our **thirty-nine years as professional numismatists** the results have been most gratifying.

We believe the various reference books are excellent guides — But **ONLY THAT**. We doubt if an intelligent person would attempt to become his own “lawyer” after reading a law book, or give himself medical treatment after reading a medical book.

Why then would an intelligent collector, who devotes himself part-time to numismatics, feel he would be as well equipped to give the best answers in building a numismatic investment as part of his estate, compared to a **PROFESSIONAL WHO HAS DEVOTED OVER A THIRD-OF-A-CENTURY TO THE STUDY AND RESEARCH OF NUMISMATICS AS A FULL-TIME PROFESSION.**

The very nature of this type of **PERSONAL COUNSELING** (A. M. or Paul Kagin) precludes it becoming a widely offered service. We are prepared, at this time, to continue offering this service to an additional few discriminating collectors as replacements for the normal attrition which has transpired during the past year.

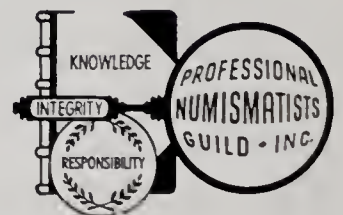

We feel the experience gained in cataloging over 295 sales (a record that speaks for itself) enables us to offer the ultimate in counseling service.

The relationship with our clients is (as has always been our policy) of a fiduciary and confidential nature.
